Choose from 100+ Local to Global Providers

TekEfficient works with a wide variety of services providers to ensure the ideal match for your specific needs. This includes Tier 1 carriers serving the globe to emerging, local, niche providers that we know handle specific use cases better than their larger counterparts. We handle all of the vendor negotiations on your behalf. With 30 years of experience navigating carrier/services provider contracts, we get the best terms and avoid pitfalls.

Provider-Neutral Recommendations

When a TekEfficient consultant makes a recommendation in favor of a specific supplier technology, it is based on the fact that it best addresses customer needs. Nothing else. We do not sell to attain quotas, nor promotional incentives. Our focus is on the long-term relationship with our customers and partners.

Don't See Your Service?

Contact us. The above is not a comprehensive list of services and chances are TekEfficient has access to a provider who can help address your specific requirements.
