Make IT Easy for Your Assisted Living Organization.

Tech demands on assisted-living facilities are more intense than ever, leaving operators scrambling. Let TekEfficient help you achieve IT success.

The latest [McKnights Senior Living survey](#) shows assisted living facility occupancy at 80.6%, third consecutive quarterly increase. And, [Fox Group](#) has identified this influx as a different kind of occupant, one with specific technology expectations as opposed to the tech-averse tenant of previous decades.

That's just the start of the latest wave of tech demands.

- Increasing government regulation on data privacy
- Virtual engagement expectations of the patient's loved ones
- Rising popularity of telemedicine, IoT, wearable technology
- Skyrocketing network demands from more connected devices
- IT agility - changes in technology and new-patient preferences

Operators like you face an intimidating list of new tech initiatives without the necessary increase in tech resources to get them done - and get them done right.

TekEfficient's experienced tech brokers are a perfect way to extend your IT capabilities without adding cost.

- Like a real estate buyer's agent, retain our brokers at no cost to you.
- Together, we will establish your tech goals and requirements.
- TekEfficient then gets to work finding the right tech for you.
- When we have found your solution, TekEfficient is paid by the "seller" - in this case, the technology supplier/s you choose.

Overcome Tech Challenges

- 1 Staying HIPAA compliant
- 2 Data security & privacy
- 3 Rapid technology change
- 4 Insufficient IT resources
- 5 Patient tech limitations
